Standards (ASTM): A106, A53 Available dimensions: 21' or cut to size -
The A106 pipe is always produced by the seamless method and can be bent, coiled and flanged. The pipes less than 2" are usually produced as a cold-drawn product. The pipes of 2" and up are usually hot finished.

The duct gage tables are based on G-60 coated galvanized steel of lock forming grade conforming to ASTM Standards A653 and A924. Uncoated steel, prepainted steel, steel with metal coating such as aluminum or aluminum-zinc compounds, and stainless steel may be used if a minimum corresponding base metal thickness and material strength is provided.
